## PLP® Arborist Products TREE CABLING TOOL

### Description

Take the pain out of tightening lag screws with PLP's Tree Cabling Tool. This new, must-have tool is designed to provide an easier way for arborists to drive lag bolts into wood. Cast from strong, yet lightweight aluminum, the Tree Cabling Tool design provides a sturdy handle with a bend in the metal and a hooked end with a point designed for driving in all sizes of J-Hook and Eye-Lag screws. It also features convenient measuring marks on the handle and a 15/16" wrench end for tightening bolts and securing the Tree Cabling Tool to your gear.

### Features

- Made of high-quality, lightweight aluminum
- Long, pointed tip is designed to accommodate hardware of all sizes
- 15/16" internally-tapered wrench that won't slide down and over your bolt
- Measuring marks on handle in 1/4" increments for quick reference
